## OVERALL DIMENSIONS

Ø70 mm

## DESCRIPTION

A collection of glass birds sculpture manufactured in Murano. A tribute to nature lightness and craftsmanship.

## HANDMADE TECHNIQUES

Melted inside a crucible, the birds are shaped by hand using metallic pliers and "tagianti" - proper glass shaping tools. The colours are either already incorporated as a single layer. Base sphere in iridescent finish.

## TOOLS

Tongs, metal pliers, "scagno" (glassmaster's workbench), "tagianti" (glassmaster's shaping tools).
